The Philosophy of **AKGUN** Global Hub

At **AKGUN Global Hub**, we believe that international trade is more than just moving goods across borders; it is about building sustainable bridges between human needs and industrial excellence.

Our philosophy is rooted in “**Demand-Driven Excellence**.” We do not follow speculative trends; we listen to the market, identify real procurement needs, and meticulously match them with verified capabilities. We operate as a **strategic** connector, ensuring that every partnership is built on three unbreakable pillars: **Trust, Transparency, and Logistics-Ready Execution**.

Vision & Mission

Vision

To become a globally recognized **strategic** hub that redefines independent sourcing through discipline and scalability. We aim to transform the traditional “trader” model into a “**strategic partner**” ecosystem where diverse sectors—from architecture to wellness—converge under a single standard of professional integrity.

Mission

-  **Bridge Building:** To seamlessly connect global buyer demand with high-quality manufacturers.
-  **Systematic Growth:** To manage a multi-sector portfolio with the precision of a large-scale enterprise while maintaining the agility of an independent strategist.
-  **Logistical Integration:** To ensure that every product sourced is backed by a robust supply chain, providing “door-to-door” confidence to.
-  **Sustainability:** To prioritize partners and products that reflect long-term value, ethical manufacturing, and market longevity.

Our Core Values

-  **Neutrality:** Acting as an objective bridge between supply and demand.
-  **Verification:** Ensuring every manufacturer in our portfolio meets professional standards.
-  **Efficiency:** Minimizing the distance between a product’s origin and its final destination through 60 years of logistical heritage.

Current Portfolio Overview

The AKGUN Global Hub portfolio has evolved from a single-product initiative into a diverse, multi-sector ecosystem. This rapid expansion reflects early market validation and a system built on verified capability and long-term cooperation.

1

Architectural & Living Solutions

Asvikon Dome Houses Concept: Modular architectural dome living solutions.

Pimay LED Lighting Systems

Professional architectural and ad industrial lighting solutions.

Marmara Dolomite Marble

Premium natural stone solutions.

Basalt Decorative Cladding

Exterior and interior architectural applications.

Natural Stone

Comprehensive interior and exterior building applications.

2

Cosmetics & Personal Care

LA FUIELLE Cosmetics: Premium botanical skincare brand focused on high-end beauty.

Turunch Cosmetics: Dedicated personal care and cosmetic products.

3

Construction & Industrial Materials

Ceramic & Tiles: High-quality surfaces, including the renowned Cañahkale Seramik range.

Kalebodur: High-end ceramic and surface solutions for sophisticated projects.

Cement: Core building materials for international infrastructure.

SAKA Steel Doors: High-security steel doors and indoor door solutions.

4

Wellness, Water & Environment

DMC Biological Water Treatment: Industrial and municipal biological purification and desalination plants.

Hoover Water Ionizer Systems: Advanced wellness devices (Official representation via Thermacure).

Integrated Logistics Support

Multi-Modal Transport: Integrated solutions via air, sea, and road.

Strategic Partnership: Collaboration with a logistics partner with over 60 years of experience.

Sector: Architectural & Living Solutions

Asvikon Dome Houses Concept

"The Future Lives Here: Where Nature Meets Engineering"

Executive Overview

Asvikon Dome is not merely a construction system: it is a living philosophy born from the idea of reconnecting humanity with nature. By integrating the "Architectural Spheric Vision of Construction", we provide modular architectural solutions that respect the rhythms of the wind and sun.

Every structure acts as a living organism—breathing, heating, and cooling in perfect harmony with its environment.

Engineering Excellence & Sustainability

- ✓ **Aerodynamic Resilience:** Spheric forms provide 30% higher resistance against wind loads compared to traditional rectangular buildings.
- ✓ **Thermal Efficiency:** The natural air circulation within the dome reduces energy consumption by up to 30% and provides 40% higher efficiency in heat distribution.
- ✓ **Modular Speed:** Every component is factory-manufactured for precision, allowing for assembly in days rather than months.
- ✓ **Eco-Conscious:** All materials used are fully recyclable, designed for a carbon-neutral lifestyle.

Lifestyle & Versatility

Whether it is a **Nature Living** family estate, a **Mountain Lodge** retreat, or a **City Concept** artistic hub, Asvikon structures adapt to any landscape.

Technical Specifications

- ⚡ **Structure:** High-strength steel alloy or carbon composite frames.
- 🗑️ **Interiors:** Steel-reinforced wooden frames for durability and warmth.
- 🔌 **Smart Integration:** Options for solar panel integration, rainwater harvesting, and invisible smart-home assistants.

Sector: Cosmetics & Personal Care

Turunch Cosmetics – Zero Series

“Zero Chemical, Zero Waste: Pure Science for Conscious Beauty”

Brand Philosophy

Turunch Cosmetics operates on a transformative “Zero Chemical, Zero Waste” philosophy, redefining personal care through deep ecological responsibility. We believe that true beauty should not come at the cost of your health or the planet. By eliminating harmful additives and focusing on biodegradable formulas, we provide a holistic skincare experience that aligns with the highest environmental standards.

The Zero Series Advantage

100% Bio-Organic Ingredients

Every formula is derived from natural, biologically active components, designed to nourish and repair.

Zero Synthetic Additives

We strictly exclude parabens, sulfates, silicones, and synthetic fragrances, ensuring safety for the most sensitive skin.

Biodegradable Formulations

Our products are designed to break down naturally, leaving no toxic footprint in water systems.

Global Market Positioning

As part of the AKGUN Global Hub portfolio, Turunch Cosmetics is positioned to meet the rising global demand for ethical and clean beauty. Whether serving high-end boutique hotels through our Bio-Organic Hotel Series or individual consumers via premium retail, we deliver a verified standard of excellence that builds trust through transparency.

Product Categories

Zero Series Skincare

Regenerative serums, cleansers and moisturizers.

Bio-Organic Personal Care

Shampoos, conditioners, and body washes for designed with premium retail in over system plus.

Botanical Treatment

Specialized formulas targeting skin concerns using herbal extracts.

Sustainability Compliance

- ✓ Certified Bio-Organic sourcing
- ✓ Ethical production processes with zero chemical runoff
- ✓ Eco-friendly logistics integration via Bandirma Port

Sector: Wellness, Water & Environment

DMC Biological Water Treatment Systems

"Innovative & Sustainable Solutions for Global Water Purification"

Executive Overview

Since 2014, DMC Aritma has established itself as a pioneering force in the water treatment sector, delivering innovative and sustainable solutions designed to protect our most vital resource.

We specialize in providing turnkey projects that address the complex needs of industrial, municipal, and maritime environments. Our approach combines technological innovation with a commitment to full environmental compliance, ensuring that every drop treated meets global standards.

Operational Commitment

Precision Execution

Guaranteed on-time and on-budget delivery through disciplined planning.

Sustainable Innovation

Systems designed to minimize environmental impact while maximizing efficiency.

Global Compliance

Every installation engineered to meet and exceed current environmental regulations.

Core Engineering Solutions

Wastewater Treatment

Advanced systems for industrial and municipal wastewater management.

City Network Water Purification

Large-scale solutions for safe and clean city-wide water distribution.

Seawater Desalination

High-tech desalination plants designed to transform seawater into potable and industrial grade water.

Turnkey Project Management

From initial allis decisions engineering thral

Technical Capabilities

Biological wastewater treatment plants

Ultrafiltration and Reverse Osmosis (RO) systems

Industrial water softening and deionization

Integrated logistics and assembly through our established supply chain

Pimay LED Lighting Systems

*"Innovative Illumination:
Precision-Engineered Lighting
for Global Infrastructure"*

Executive Overview

Pimay LED Lighting, a core component of the Pimay Project ecosystem, specializes in professional architectural and industrial lighting solutions. We provide a comprehensive range of high-performance LED systems designed to meet the rigorous demands of modern urban infrastructure, industrial facilities, and architectural landmarks. Our focus is on combining superior luminosity with long-term energy efficiency and structural durability.

Advanced Street & Urban Lighting Solutions

- ✓ **High-Efficiency LED Chips**
Utilizing world-class LED technology delivering high lumen-per-watt ratios.
- ✓ **IP66 Rated Durability**
Engineered with high-protection standards ensuring seamless performance under extreme weather and dust exposure.
- ✓ **Die-Cast Aluminum Housing**
Constructed with robust, electrostatic powder-coated aluminum bodies for optimal heat dissipation and corrosion resistance.
- ✓ **Optical Precision**
Specialized lenses providing uniform light distribution while minimizing glare and light pollution.

Strategic Value & Integration

- ✓ **Custom Project Engineering**
Providing tailored lighting calculations, and simulations for specific architectural or industrial needs.
- ✓ **Energy Savings**
Achieving up to 60-10% reduction in energy on completion stages, compared to traditional lighting stores.
- ✓ **Logistics-Ready Distribution**
Supported by air sea, and road transport networks. For rapid delivery from our international project sites.

Technical Specifications

- ✓ **Power Range** 30W – 300W high-performance options
- ✓ **Voltage Compatibility** 100V – 240V (50-60Hz for global grid adaptability)
- ✓ **CCT** Customizable options from 3000K to 6500K

LA FUIELLE

Cosmetics – Botanical Anti-Aging

"The Alchemy of Nature: Premium Skincare Infused with Botanical Wisdom."

Brand Essence

LA FUIELLE Cosmetics represents the pinnacle of natural anti-aging science, dedicated to creating high-performance skincare without the use of harmful chemicals. Our philosophy centers on "Clean Beauty", where we replace synthetic additives with potent botanical cellular regeneration and skin vitality. Every formula is a meticulous blend of traditional botanical heritage and modern dermatological research.

Signature Anti-Aging Formulations

Aronya (Chokeberry) Extract

A powerhouse of antioxidants that neutralizes free radicals and prevents premature aging.

Royal Jelly (Bee Secret)

Utilizing the "Secret of the Queen Bee" our formulas incorporate royal jelly to boost skin tone and enhance elasticity.

Grenade Éclat (Pomegranate)

Rich in Vitamin C and polyphenols, this extract provides a natural glow while firming skin structure.

Berry Defense

A protective shield formulated from berry extracts to defend skin against environmental stressors or pollution.

Olive Oil & Aloe Vera Fusion

Combining pure Ayurvedic olive oil with stabilized Aloe Vera for deep hydration and soothing anti-inflammatory benefits.

The LA FUIELLE Standard

- ✓ **No Parabens or Sulfates:** We ensure our products are safe for long-term use on all skin types.
- ✓ **Eco-Friendly Sourcing:** Every botanical ingredient is ethically sourced to maintain bio-activity and purity.
- ✓ **Scientific Precision:** Formulas are developed with specific ratios of actives such as hyaluronic acid and collagen-boosting plant extracts.

Core Product Portfolio:

- ✓ **Anti-Age Intensive Serums:** For wrinkle reduction and skin firming.
- ✓ **Regenerative Night Creams:** High concentration formulas for overnight cellular repair.
- ✓ **Hydrating Defense Lotions:** Daily-use protection with natural UV barriers.

d'loopy – Handcrafted Upcycled Bags

“From Vienna to the World: Knitting a New Vision of Conscious Fashion”

Brand Philosophy

d'loopy is not just a bag brand; it is a movement dedicated to creating a new awareness in the world of recycled fashion. Originating in Vienna and expanding globally, d'loopy transforms waste materials into premium, handcrafted accessories. Our philosophy is rooted in “Upcycled Sensitivity”, where every product tells a story of rebirth, ethical production, and timeless style. We believe that true luxury lies in the uniqueness of handwork and the positive impact we leave on the planet.

Global Vision & Scalability

Conscious Consumption. We cater to the growing demographic of “Aware Consumers” who prioritize environmental impact alongside design.

Global Hub Distribution. Supported by our strategic logistics infrastructure, d'loopy is positioned to reach conscious boutiques and eco-luxury retailers worldwide.

Verified Quality. Each piece undergoes a rigorous quality check to ensure that recycled materials meet our premium standards of durability and texture.

The Art of Circular Fashion

Handcrafted Excellence. Each bag is meticulously hand-knitted, ensuring that no two pieces are exactly alike, celebrating the beauty of individual artistry.

Upcycled Material. We utilize waste combed-cotton yarns (*atık perye ipe*) diverting textile waste from landfills and transforming it into durable, high-quality fashion.

Product Highlights:

- ✓ **Bespoke Hand-Knit Collections:** Limited edition series available in seasonal colors.
- ✓ **Eco-Luxury Accessories.** Durable, washable and designed for longevity.
- ✓ **Sustainable Gifting.** The perfect choice for those who value ethical craftsmanship.

TIMELESS

THE MARMARA LEGACY

Marmara Dolomite Marble

Executive Overview

Marmara Dolomite is one of the world's most distinctive and historically significant natural stones sourced directly from the legendary quarries of Marmara Island. Known for its unique crystalline structure and characteristic grey-blue veining on a pristine white background, this marble has been the preferred choice for prestigious architectural projects since antiquity. Within the AKGUN Global Hub portfolio we provide direct access to this premium material, ensuring verified quality and reliable supply chains for global markets.

Distinctive Characteristics & Technical Superiority

Crystalline Purity: High dolomite content delivers superior polish and semi-translucent depth.

Natural Durability: Dense structure ensures resistance for interior and exterior use.

Hygiene & Resistance: Low water absorption, ideal for hammams, spas, and wellness areas.

Design Versatility: Polished, honed brushed finishes for modern and classical architecture.

Global Sourcing & Supply Excellence

Direct Quarry Access: Ensuring the most authentic selection of Marmara Dolomite directly from the island's primary sources.

Standardized Quality Control: Every slab and tile is inspected to meet international architectural standards before shipment.

Logistics Orchestration: Supported by our 60-year logistics heritage, providing seamless transport via Bandirma Port to any destination worldwide.

Basalt Decorative Cladding

THE STRENGTH OF VOLCANIC HERITAGE

Sophisticated Durability for Modern Spaces

Executive Overview

Basalt is a volcanic rock formed from the rapid cooling of magnesium-rich and iron-rich lava. Known for its extraordinary hardness and monochromatic elegance, **Basalt Decorative Cladding** offers a timeless aesthetic for both contemporary and classical architecture. At AKGUN Global Hub, we source premium-grade **basalt** to provide architects and developers with a material that combines deep charcoal tones with unparalleled structural integrity.

Technical Superiority & Aesthetic Appeal

-  **Thermal Stability:** Naturally resistant to extreme temperature fluctuations, preventing cracking or degradation over time.
-  **High Density:** Its compact structure provides excellent resistance to moisture, frost, and chemical erosion, ensuring longevity in any climate.
-  **Sophisticated Texture:** Various finishes—from raw, split-face textures for a rustic look to polished or honed finishes for a sleek, modern feel.

Verified Sourcing & Strategic Logistics

-  **Precision Cutting:** Sourced and processed with high-tech machinery to ensure consistent thickness and dimensions for seamless cladding.
-  **Quality Verification:** Each batch is inspected to ensure the characteristic deep grey and black tones remain consistent throughout the project.
-  **Logistics Orchestration:** All shipments are coordinated via our strategic logistics partners, ensuring efficient delivery from the quarry to the project site.

Typical Applications:

Exterior Cladding

High-end commercial buildings, villas and urban landscaping

HEXA-LUXURY WHITE MARBLE

The Geometry of Elegance: Premium Symmetrical
Solutions for Sophisticated Interiors

Executive Overview

Our Hexagonal White Marble collection represents the intersection of classical stone artistry and contemporary geometric design. Sourced from elite quarries known for their high-purity calcium carbonate structures, this premium marble is meticulously cut into **perfect hexagonal tiles**.

This collection is specifically curated for high-end interior projects where texture, light reflection, and symmetry are paramount. Within the AKGUN Global Hub, we offer this masterpiece as a bridge between ancient geology and modern luxury.

Premium Characteristics & Kitchen Excellence

-  **Laser-Cut Accuracy:** Utilizing advanced water-jet and laser-cutting technologies to ensure every angle is perfectly symmetrical.
-  **Hand Selected Slabs.** We personally verify the vein consistency of the marble slabs before the cutting process begins.
-  **Global Delivery Efficiency.** Coordinated through our logistics network ensuring that these delicate, premium tiles reach international project sites in specialized, secure packaging.
-  **AKGUN Global Hub |** contact@akguntradehub.com

Typical Applications:

Kitchen Backsplashes:

The primary choice for ultra-luxury kitchens.

Sector: Construction & Heavy Industrial Materials

Product: Construction Steel & Rebar (Yapı Çeligi)

THE BACKBONE OF GLOBAL INFRASTRUCTURE

Turkish Engineering Excellence

Executive Overview

Steel is the **foundational** element of modern civilization, and Turkish steel stands as a global benchmark for **quality**, **resilience**, and **engineering precision**. Within the AKGUN Global Hub portfolio, we bridge the gap between world-class Turkish steel manufacturers and international infrastructure projects. Our sourcing strategy for construction steel is built on the pillars of **certified reliability** and **high-volume scalability**, ensuring that the “backbone” of your projects is forged with the highest standards of the **Turkish industrial heritage**.

Technical Superiority & Structural Integrity

-  **High Tensile Strength:** Optimized for high-rise buildings, bridges, and industrial complexes that require maximum load-bearing capacity.
-  **Superior Ductility:** Engineered to provide exceptional seismic resistance, a critical factor for infrastructure projects in earthquake-prone regions.
-  **Certified Quality:** Every shipment is backed by mill test certificates (MTC), ensuring chemical composition and physical properties are verified.

Global Sourcing & Heavy-Duty Logistics

-  **Manufacturer Coordination:** Direct alignment with export-ready Turkish steel mills that possess high capacity production lines.
-  **Market-Entry Documentation:** Provision of all necessary export documentation and compliance certifications for seamless customs clearance.
-  **Port-to-Port Orchestration:** Leveraging 60 years of logistics expertise to manage the transport of heavy steel loads via Bandırma Port and other strategic maritime gateways.

Product Portfolio:

Deformed Steel Rebar:

Essential for reinforced concrete structures,

Structural Steel Sections:

IPE, HEA, HEB beams, and U channels, for industrial frames.

Sector: Construction & Heavy Industrial Materials

Premium Cement Solutions

BINDING THE FUTURE

High-Performance Turkish Cement for Global Landmarks

Executive Overview

As one of *the world's* leading producers and exporters, the Turkish cement industry represents a global benchmark in strength, consistency, and sustainability.

Within the **AKGUN Global Hub**, we connect international projects with export-ready Turkish cement manufacturers that comply with EN, ASTM, and international construction standards.

Our mission is to deliver the structural 'bond' that guarantees durability, safety and long-term performance in infrastructure, residential, and industrial developments worldwide.

Technical Excellence & Chemical Precision

-  **High Early Strength.** Enables accelerated construction schedules and superior load-bearing performance.
-  **Chemical Consistency.** Uniform setting times and excellent workability ensured through rigorous control.
-  **Specialized Cement Blends.** Full access to
 - Portland-Cement (CEM I / OPC);
 - Portland-Composite Cement (CEM II);
 - Sulfate-Resistant Cement for marine and underground structures
-  **Low Carbon Footprint.** Sourced from manufacturers adopting eco-efficient production technologies and responsible raw material sourcing.

Integrated Global Supply Chain

-  **Bulk & Bagged Supply Options**
50 kg bags, big-bags, palletized shipments and bulk vessel loading.
-  **Strategic Maritime Access.**
Seamless exports via Bandırma Port and key Turkish maritime hubs.

Sector: Construction & Architectural Solutions

Product: SAKA Steel Doors & Indoor Door Systems

THE GATEWAY TO SECURITY

Where Industrial Strength
Meets Architectural Elegance

Executive Overview

A door is more than just an entry point; it is the primary shield of a building and statement of its interior design.

SAKA provides high-performance steel and indoor door systems that integrate advanced security engineering with refined aesthetics. As a strategic partner within the AKGUN Global Hub, SAKA delivers, durable, export-ready solutions designed to meet the rigorous safety and design standards of international residential and commercial projects.

Security, Durability & Design

Our door systems are engineered to provide maximum protection without compromising on the visual harmony of the architectural space.

-  **High-Security Steel Doors:** Featuring multi-point locking systems and reinforced steel internal structures for uncompromising residential safety.
-  **Indoor Door Systems.** A diverse range of interior doors designed for aesthetic flow, sound insulation, and long-term durability.
-  **Superior Material Quality:** Utilizing high-grade Turkish steel and premium wood finishes to ensure resistance against environmental factors and wear.
-  **Seismic & Fire Resistance:** Available options for certified fire-rated and structurally reinforced doors to meet global building safety codes.

Global Sourcing & Project Alignment

-  **Custom Specification Management:** Analyzing buyer needs and technical requirements to match the project.
-  **Export Ready Documentation:** Providing all necessary certifications and technical documentation.

Product: Sultan Natural Spring Water

PURE HYDRATION FROM THE HEART OF ULUDAĞ

A Heritage of Natural Excellence

Executive Overview

Sultan Water, established in 1975, is one of Turkey's most respected and long-standing natural spring water brands. Sourced from the pristine, high-altitude peaks of the Uludağ mountains Sultan Water delivers an untouched hydration experience directly to the consumer. Within the AKGUN Global Hub portfolio, we represent **Sultan Water** as a symbol of purity and health, ensuring that this vital natural resource reaches global markets, with its mineral composition intact and quality verified.

Product Range:

-  **Premium Glass Series:** Designed for hotels restaurants, and cafes, (HoReCa)
-  **PET Bottle Range:** Various sizes for retail and high volume consumption
-  **Bulk Water Solutions:** Specialized formats for office and household use
-  **Inquire for Global Distribution:** www.sultanicecek.com.tr | info@akguntradehub.com

Strategic Sourcing & Logistics Mastery

-  **Diverse Packaging Solutions.**
Available in a wide range of formats, from premium glass bottles for fine dining to practical PET solutions for daily retail
-  **Direct Manufacturer Liaison**
We act as a strateg's bridge to ensure production schedules align with international buyer demand
-  **Logistics-Ready Execution**
Supported by our 60-year logistics heritgerge, we manage temperature-controlled, and secure shipments via Bandrnia Port to preserve freshness

THE FUTURE OF HYDRATION

Transforming Daily Water into a **Wellness Tool**

Executive Overview

In the modern wellness era, the quality of water is **measured** by its **biological activity** and antioxidant potential. Through the **AKGUN Global Hub**, we introduce a specialized portfolio of **water ionization and hydrogen enrichment** technologies. Our solutions, range from accessible retail products to high-end home appliances, all designed to optimize cellular hydration and balance the body's pH levels. We bridge the gap between advanced South Korean engineering and the global health-conscious market.

Smartlife Hydrogen Capsules

RETAIL MARKET EDITION

Alkaline Water on the Go

Smartlife Hydrogen Capsules

(RETAIL MARKET EDITION)

"Alkaline Water on the Go"

- Product Concept:** A practical, portable capsule designed for mass-market retail, allowing consumers to transform standard bottled water into hydrogen-rich alkaline water.
- Core Benefit:** Increases the pH level and antioxidant capacity of water instantly, making a perfect fit for fitness centers and health-oriented supermarket shelves.
- Market Fit:** High-volume retail, pharmacy chains, and sports nutrition outlets.

Hoowell Hydropod

PORTABLE PERSONAL IONIZER

"Personalized Wellness Technology"

- Product Concept:** A compact, portable ionizer that uses advanced electrolysis to generate high concentrations of dissolved hydrogen in seconds.
- Market Fit:** Tech-retailers, premium pharmacies, and airport electronics boutiques.

Project: Sultan Sparkling Natural Mineral Water

CENTURIES OF PURITY, A FUTURE OF FLAVOR

The Sparkling Essence of Uludağ

Executive Overview

Sultan Mineral Water carries a legacy of over 100 years, bottling one of Turkey's oldest and most precious natural resources. Sourced from the mineral-rich depths of the Uludağ and Eskisehir regions, Sultan, provides a **zesty, health-restoring hydration** experience. Within the AKGUN Global Hub, we position **Sultan Mineral Water** as a versatile beverage solution that bridges the gap between traditional mineral wellness and modern, fruit-infused refreshment.

Mineral Richness & Health (NATURAL-FLAVORED SERIES)

"Alkaline Water on the Go"

- Product Concept:** A practical, portable capsule designed for mass market retail allowing consumers to transform standard bottled water into hydrogen rich alkaline water.
- Digestive Support:** Aids in balancing the digestive system and replenishing electrolytes lost during physical activity.
- 100-Year Heritage:** Bottled at the source using state-of-the-art, fully automated technology to ensure zero human contact and absolute purity.

The Fruit-Infused Innovation (FRUIT-FLAVORED SERIES)

The Ultimate Kitchen Wellness Station

- Exotic Fusions:** Innovative combinations like Mango & Pineapple, and Watermelon & Strawberry for a tropical refreshment.
- Antioxidant Power:** The Black Mulberry & Blackcurrant (Karadut & Frenk Üzümu) series blends rich mineral water with the vibrant superfoods.
- Vitamin C Extra:** Specialized formulas like the C-Extra Lemon series for an added immunity boost.

Strategic Distribution Categories:

- Natural Sparkling (Sade):** For pure mineral hydration and dining excellence.
- Fruit-Flavored Range:** Perfect for retail shelves, cafes, and healthy lifestyle kiosks.
- Premium Glass Packaging:** 200ml and 250ml glass options, designed for premium Hořca visibility.

EHLIZADE

Sector: Wellness & Gourmet Food Ingredients

Project: EHLIZADE – Natural Extracts, Vinegars & Artisanal Molasses

THE ESSENCE of VITALITY: Pure Botanical Extracts and Traditional Superfoods

Executive Overview

1. Natural Extracts & Concentrates (The “Öz” Group)

- **Premium Fruit Extracts (700g)**
Concentrated Black Mulberry, Blueberry, Cranberry, and specialized Lavender extracts.
- **Whole-Fruit Concentrates (1350g)**
Unique formulations containing whole pieces of Black Mulberry, Forest Fruits, and Orange.
- **Functional Jar Extracts (650g)**
Potent wellness solutions including Cypress Cone (Servi Kozalak), Cold-Pressed Carob, and Elderberry (Karamürver-) extracts.

2. Fermented Vinegars, Sauces & Detox Blends

Focusing on metabolic nest and culinary excellence through natural fermentation.

- **Artisanal Vinegars (500ml)** A diverse range including Artichoke, Hawthorn (A'lç), Pineapple, and Blueberry vinegars.
- **Gourmet Pomegranate Sauce.**
Pure 700g Pomegranate sour essential for authentic Mediterranean cuisine.
- **Smart Detox Mixes (250ml).** Targeted wellness blends such as Bromelain Mix, Avocado Mix, and Puree Detox for modern nu-

3. Traditional Artisanal Molasses (Pekmez)

Slow-cooked, nutrient dense, traditional sweeteners in 650g jars.

Strategic Value & Sourcing:

- **Premium Glass Packaging:** Ensuring product scalability and an seo-friendly real presence.
- **Standardized Purity:** Sourced and waited for consistent nutrient density across all batches.
- **Logistics Excellence:** Managed via our 60-year logistics network, ensuring safe transit from the hub to international distributors.
